

# Architectural Review Committee Meeting Minutes January 14, 2020, 7:00 p.m.

Members Present: Sylvia Andrejczuk, Eric Erickson, Jim Eyster, Rob Gordon, Rob Mohr, Kevin Smith

Member Absent: Natasha Bodorff

A brief meeting was held to remove from the two ARC filing cabinets located in the HOA storage closet in the Community Center all historical, hard copy blueprints still on file by the ARC. After removal the blue prints were distributed in approximately equal amounts to each of the members of the Committee for review and disposition.

For all blueprints filed within the last 5 to 7 years, Committee members will make best efforts to locate and notify the property owners to which the blueprints refer for guidance regarding their disposition. Very few blueprints within the five to seven-year criteria are likely to be found in that all ARC record-keeping went digital via Google Drive in 2016.
